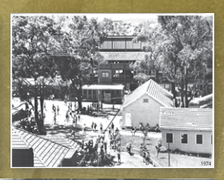
St Pius X College Chatswood 1970s

Although the science laboratories and library are suitable and relatively well equipped, the College needs urgently a school hall, gymnasium, and administration block and staff room, a junior library, additional classrooms and ancilliary rooms including rooms for audio/visual equipment and storage, for remedial teaching, for the teaching of foreign students, for the teaching of art and craft and music (now taught in hopelessly unsuitable huts), and for a much more suitable and adequate school canteen.



SAINT PIUS X COLLEGE ADVISORY COUNCIL.
